

Efficient EPS shredding that quickly pays for itself

Up to three times less EPS volume with the T-REX 550 GENIUS EPS. High build quality, compact design and excellent value for money.

Bulky EPS packaging incurs high costs due to large storage areas and inefficient transport. The T REX 550 **reduces volume by up to 3:1**, thus optimizing logistics and disposal.

This compact, cost-effective machine offers **reliable shredding, high-quality output, and ease of use**. Its space-saving design significantly reduces storage, transport, and disposal costs. Ideal for the food industry, retail, shopping centers, and construction sites.

YOUR ADVANTAGES AT A GLANCE:

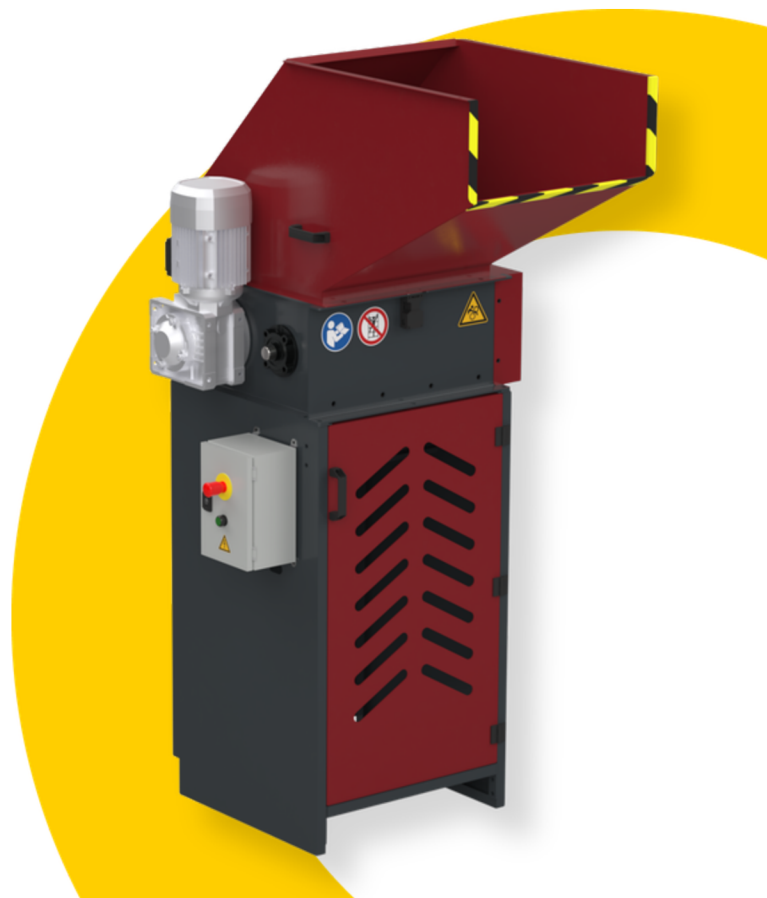

- **Up to 66% less volume** for more space, less logistics
- Cost-effective investment combined with high processing quality
- Compact and space-saving, ideal for small to medium EPS quantities
- Simple operation without complex infrastructure

T-REX 550 GENIUS EPS

Throughput*	up to 30 kg/h
Effective loading opening (W x D)	550 x 550 mm
Achievable grain size*	10 - 50 mm
Processable material densities	EPS molded parts, packaging and insulation boards up to 40 g/l
Achievable volume reduction*	up to 3:1
Pre-crusher Type	SZ 550 M-SC3
Usable PE bag size	240 liters
Dimensions (W x D x H)	880 x 1.200 x 2.055 mm
Machine weight	230 kg
Electrical connection capacity	1.50 kW (16 A)
Supply voltage (EU)	3x 400 V 50 Hz
Labeling	CE

*Depending on material density and composition.
